ARE WE ALIGNED?

The Policies/Administrative Interface

When driving, it is important to have wheels that are aligned. If not, excess fuel and human energy are used to stay on the road making the trip less enjoyable. Learn practical techniques to ensure Council and staff are *on the same page*. Gordon will provide an interactive session to explore ways to align processes and behaviours to maximize governance effectiveness, strategic priorities and Council/staff relations.

This timely session is designed for elected officials and staff in local and First Nation governments wishing to:

- Develop **shared expectations** for a successful local government
- Ensure **role clarity** for staff and Council
- Maximize **political/administrative relations**
- Enhance strategic and decision making **processes**
- Lead more effective decision making processes and **meetings**
- Learn how to conduct regular organizational & governance **check-ins**

Integrate contemporary leadership skills with 'real life' situations in partnership with colleagues. You will leave this session with techniques, a tool kit, guidelines and ideas to make a leadership difference in your organization:

- An *Organizational Checklist* to conduct regular Council or management check-ins
- Remedial and preventive *alignment strategies*
- *Governance Guidelines* for roles, decision making & priority setting
- *Best practices* from your peers and throughout the Country

Dr. Gordon McIntosh has conducted 1,300 sessions throughout Canada and overseas. He has 40 years of local government consulting, managerial and teaching experience to provide practical local government leadership insights.
